ACKNOWLEDGMENTS

The Bureau of the Census is indebted to the many Federal, State, and local government officials who provided the information and gave other assistance for the preparation of this report.

In the Law Enforcement Assistance Administration, general supervision was provided by **Charles R. Kindermann**, with project direction by **Sue A. Lindgren** and editorial supervision by **Marilyn Marbrook**, all of the Statistics Division. In the Bureau of the Census, Governments Division, general supervision was provided by **Alan R. Jones** and **Diana M. Cull**. Significant contributions were made by **Bernice J. Brigham**, **Victoria E. Campbell**, **Ora E. Dorsey**, **Dennis E. Gosier**, **Janie M. Hutchison**, **Purnell E. Johnson**, **Mario F. Plasencia**, **Joyce M. Stanford**, and **Joan B. Taylor**; and Operations units under the supervision of **Ulvey S. Harris** and **Howard S. Sales**. Preparation of publication copy was supervised by **Corrine Davis**. In the Field Division, general coordination was provided by **E. Wilson Burdorff**; and in Data Preparation Division by **Betty L. Russ**.

IMPORTANT

We have provided a User Evaluation Questionnaire at the end of this publication. It will assist us in improving future reports if you will complete and return it at your earliest convenience. The questionnaire is a self-mailing form and requires no postage.

TABLE FINDING GUIDE

Subjects by Type of Government and Table Designation

This guide lists all subjects covered in this report, but does not indicate all the detail shown in some tables, e.g. percent distributions, capital outlay, employment by full-time and full-time equivalent, etc. Expenditure data are for FY 1977 and employment and payroll data for October 1977. Numbers or letters in bold type refer to tables or figures showing only aggregate data for the designated type of government or SMSA's. All other numbers and letters relate to data for individual governments.

Subject	Total U.S.	Federal government	State governments	Local governments			
				Total, county, municipal	17 large SMSA's	333 large counties	395 large cities
CRIMINAL JUSTICE SYSTEM							
Direct expenditure: FY '71, '72, '73, '74, '75, '76	A	A	A	A

SELECTED FINDINGS

General

In fiscal year 1977 total expenditure for criminal justice purposes by all governments was close to \$22 billion (\$21.6 billion), an increase of 10 percent over fiscal year 1976 but less than the 14 percent increase recorded from 1975 to 1976 (table A). For the month of October 1977, criminal justice full-time equivalent employment was 1,131,780 (table B), a nearly 5 percent increase over 1976.

Local governments (counties and municipalities) accounted for 60 percent of all direct criminal justice expenditure; State governments for 27 percent; and the Federal Government for the remaining 13 percent (figure 6). Nearly the same distribution applies to employment, with almost two-thirds (65 percent) of the total criminal justice full-time equivalent employment at the local level (figure 7).

On a sector basis, about \$12 billion, or 55 percent of total criminal justice expenditure, was allocated for police protection; and another \$5 billion, or 23 percent, was spent for corrections. The remaining 22 percent was distributed as follows: \$2.6 billion or 12 percent for judicial activities, \$1.2 billion or 6 percent for legal services and prosecution, \$0.4 billion or 2 percent for public defense, and \$0.5 billion or 2 percent for other criminal justice activities.

The proportion of the six criminal justice activities or sectors accounted for by each level of government varies substantially, as shown by text tables C and D. Other sharp variations in the pattern of criminal justice expenditure occurred by region and by State, as indicated in figures 2 and 3 in the Graphic Summary.

On a per capita basis, direct expenditure of State and local governments for criminal justice activities was \$87 in 1977, a 9 percent increase over the \$80 in 1976. Local governments spent \$60 per capita, or 69 percent of the total State and local government per capita expenditure (figure 1).

Direct expenditure for police protection of municipalities (up \$444 million) and corrections expenditure of State governments (up \$372 million) together accounted for over 43 percent of the total increase in direct expenditure for all governments.

Federal Government

Federal criminal justice expenditure increased \$280 million or 8 percent to \$3.6 billion in FY 1977. Nearly one half (\$1.8 billion) was spent by Federal agencies in the "police protection" sector (figure 8).

The second largest block of Federal criminal justice expenditure, \$876 million or 24 percent of the total, was expended in the "other criminal justice" category. However, this amount represented an 8 percent or \$72 million decline from fiscal year 1976. The decline was primarily the result of

a \$62 million drop in Law Enforcement Assistance Administration (LEAA) grants, which, at \$774 million, constitute 88 percent of all "other criminal justice" expenditure. LEAA alone accounted for 4 percent of all government expenditure for criminal justice.

The public defense sector accounted for the largest percentage increase, 35 percent or \$36.7 million.

Agencies in the police protection sector reported 71,433 or 71 percent of the 100,088 Federal full-time equivalent employment.

The Federal Government pays the highest average monthly salary in every criminal justice category (figure 5). However, State and county average monthly salaries rose 9 and 10 percent, respectively, compared to a 6 percent increase at the Federal level.

State governments

State governments spent \$6.7 billion or 4 percent of their total 1977 general expenditure of \$166.0 billion on criminal justice activities (table 6). This represents an increase of \$709 million, or 12 percent.

The corrections sector accounted for the largest portion of State criminal justice expenditure, \$3 billion or 44 percent (figure 10).

The balance of State criminal justice expenditure was distributed as follows: police protection, 29 percent; judicial, 11 percent; legal services and prosecution, 5 percent; public defense, 1 percent; and "other criminal justice", 9 percent (figure 10).

The legal services and prosecution sector at the State level showed the largest percentage increase, up 24 percent.

A slight decline in State "other criminal justice" expenditure of 0.2 percent follows several years of decreased growth rates and reflects a drop from \$482 million to \$471 million in State intergovernmental payments to local governments due largely to lower LEAA block grant allocations.

Each criminal justice sector at the State level showed full-time equivalent employment increases, ranging from a 3 percent increase in the number of police protection employees to a 36 percent increase in judicial personnel (due largely to court system reorganizations involving a State takeover of some local courts).

Counties

County governments spent a total of \$5.1 billion for criminal justice, up \$478 million or 10 percent over FY 1976 and about half of the percent increase of the prior year. Nearly one-third (32 percent) was expended for police protection; 27 percent for

corrections; 25 percent for judicial; 9 percent for legal services and prosecution; 4 percent for "other criminal justice", and 3 percent for public defense (figure 14).

County full-time equivalent employment was 287,760 in October 1977, an increase of 6 percent over October 1976 (figure 15).

The 333 counties with a 1975 population of 100,000 or more accounted for slightly more than three-fourths (\$3 billion) of the total county criminal justice expenditure and 72 percent of all county full-time equivalent employment for criminal justice (tables 15-19).

Municipalities

Municipal governments (cities, towns, and townships) outspent county governments on criminal justice activities by almost \$4 billion, but the difference can be attributed mainly to the police protection sector, where municipal governments outspent counties by more than a 4 to 1 margin (figure 16).

Municipal full-time equivalent employment for criminal justice was 445,361 in October 1977, a 2 percent increase over

the October 1976 level. The employment level in police protection, accounting for 86 percent of all municipal criminal justice personnel, accounted for nearly all of the increase (figure 17).

The 395 city governments with a 1975 population of 50,000 or more contain 53 percent of the municipal population but account for 67 percent of all municipal criminal justice expenditure and 62 percent of all municipal full-time equivalent employment (tables 20-24).

Local governments in the largest SMSA's

The county and municipal governments in the 17 largest standard metropolitan statistical areas, containing 30 percent of the United States population, expended \$6.0 billion for criminal justice activities — almost half (46 percent) of the Nation's total local criminal justice direct expenditure (table 12).

The local governments in the 17 largest SMSA's accounted for 295,830 full-time equivalent employment or 40 percent of the total full-time equivalent local government employment in criminal justice (table 13).

INTRODUCTION

This publication is the eleventh in a series of annual reports that present public expenditure and employment data on criminal justice activities in the United States. In this report, expenditure data cover the fiscal year (FY) 1977, and employment data are for the month of October 1977. Refer to the Survey Methodology section of the text for a discussion of the variation in some fiscal year ending dates.

As in previous years, specific data are supplied for the Federal Government, each of the 50 State governments, and the aggregate local level of government within each State. Survey coverage was designed to produce reliable estimates for each State of the percent of total State and local law enforcement expenditure funded and expended by units of general local government. These estimates, shown in table 1, are necessary for compliance with the provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended. Data are published separately for the aggregate county governments and the aggregate municipal governments (cities, towns, and townships) within each State, for each of the 333 counties with a 1975 population of 100,000 or more, for the 395 cities with a 1975 population of 50,000 or more, and for the 17 standard metropolitan statistical areas (SMSA's) with a 1975 population of 2,000,000 or more.¹

Historical overview

Although this annual series of reports began in fiscal year 1967, caution should be exercised in comparing data in the FY 1971 and later volumes with data in earlier volumes. Beginning with FY 1971, the survey was greatly expanded. The survey panel of governmental units was increased by a third, and the number of units for which data are compiled in the field by specially trained agents was more than doubled. Data collection further benefited from a growing familiarity with the criminal justice systems of the various States and of the individual units within the States. Data from the FY 1971 through FY 1977 annual volumes are essentially comparable; these data were collected in each year from the same panel of governments and were edited and processed in a uniform fashion. Refer to the Survey Methodology section of the text for more detail.

Table A shows the steady rise in expenditure for criminal justice activities at all levels of government over the 7 years. Full-time equivalent criminal justice employment also increased at all levels of government but at a much slower rate than expenditure (see table B). A report entitled Trends in Expenditure and Employment Data for the Criminal Justice System, 1971-1976, which summarizes data from the annual publications, is available. The next trends report, covering

fiscal years 1971 through 1977, is being prepared for release in the spring of 1979.

Organization of this report

In this introductory text, Federal, State, and local government criminal justice expenditure and employment data are discussed and compared with 1976 data. Accompanying tables and charts are followed by a description of survey methodology, data sources, and limitations.

Following the introductory text are the main tables, which are organized into three major parts. Section I presents "variable pass-through" data (table 1), with an accompanying explanation of this unique concept. Section II presents summary data for the criminal justice system at the Federal, State, and local government levels and for selected SMSA's and individual governments, showing the interrelationship of the various sectors of the system (tables 2-24). Sections III-VIII cover each of the six "sectors" of the criminal justice system individually, providing where possible a further breakdown of data on particular criminal justice activities (tables 25-61). Charts showing percent distribution of criminal justice expenditure by State and type of government appear at the beginning of Sections II-VIII (see figures 19-25).

Table A. Total Criminal Justice Direct Expenditure and Percent Change by Level of Government, Fiscal Years 1971 to 1977

Year	Total	Federal	State	Local
Amount (millions of dollars)				
1971.....	10,517	1,215	2,681	6,621
1972.....	11,732	1,502	2,948	7,281
1973.....	13,007	1,651	3,304	8,052
1974.....	14,851	1,859	3,900	9,092
1975.....	17,249	2,188	4,612	10,449
1976.....	19,681	2,450	5,204	12,027
1977.....	21,574	2,779	5,812	12,983
Percent increase or decrease (-)				
1971 to 1972..	11.6	23.6	10.0	10.0
1972 to 1973..	10.9	9.9	12.1	10.6
1973 to 1974..	14.2	12.6	18.0	12.9
1974 to 1975..	16.1	17.7	18.3	14.9
1975 to 1976..	14.1	12.0	12.8	15.1
1976 to 1977..	9.6	13.4	11.7	7.9
1971 to 1977..	105.1	128.7	116.8	96.1

Note: Because of rounding, detail does not always add to total.

¹ Once an SMSA, county or city is selected for individual presentation on the basis of its population, the unit continues to be shown individually even though its population may later drop below the established criteria. This is to retain comparability in the presentation of individual unit data from year to year.

Tables A and B of appendix 1 show expenditure and employment data for special police force activities in selected school districts and special districts not included in the summary totals for general local governments. Tables C and D of appendix 1 show expenditure and employment data for campus police forces of State and local governments—data which are included in the summary tables. Refer to the Survey Methodology section of the text for a discussion of the differences in general local governments and independent school districts and special districts in the presentation of data in this report. A new appendix table, table E, shows the amount of block grants and categorical grants awarded to each State by the Law Enforcement Assistance Administration in FY 1977.

Immediately preceding this introduction, a table-finding guide has been provided for quick reference to the subjects covered. The guide cross-references all subjects contained in this report pertaining to criminal justice activities by all governments combined and each level of government—Federal, State, and local. Local governments are further broken down into counties and municipalities.

Definitions for concepts, categories, and terms used in this report are contained in appendix 2. Two concepts that recur frequently, however, are worth noting here. Total expenditure is comprised of direct and intergovernmental expenditure of a government or level of government for criminal justice activities. In most expenditure tables, certain totals must be adjusted to exclude duplicative intergovernmental expenditure amounts. For example, money paid by a State government to a county government within that State is reported by the State government as an intergovernmental expenditure and by the county government as a direct expenditure when the money is spent. Therefore, in order to arrive at a combined State-local government total that does not duplicate these amounts, intergovernmental expenditure amounts are deducted from the State-local total, since those amounts are also reflected in the direct expenditures of the recipient governments. The same is true of intergovernmental payments between counties and municipalities within the same State. Full-time equivalent employment is a statistical measure that represents the total number of employees (full- and part-time), discounted by applying average full-time earning rates. It is calculated by dividing the total payroll (full-time plus part-time) by the full-time payroll and multiplying the resultant quotient by the number of full-time employees.

It is also important to note that in this report the judicial, legal services and prosecution, and public defense categories include expenditure and employment data for both criminal and civil justice activities because available source documents for many governments do not segregate these activities for courts or agencies that handle both. Nor are the State and local governmental officials who provide the survey data able to make this break reliably and consistently. Therefore, in the absence of a consistent and reliable basis for proration, both criminal and civil activities are included for these categories to preserve uniformity in the collection and presentation of data.

Appendix 3 exhibits the mail questionnaires used in the 1977 survey, followed by a user evaluation questionnaire soliciting comments from readers.

General, fiscal year 1977

Total expenditure for criminal justice purposes in FY 1977 by all levels of government was \$21.6 billion. This is an increase of \$1.9 billion or 10 percent over FY 1976 but less than the 14 percent increase recorded in FY 1976 (table A).

Over half, \$12 billion, of total criminal justice expenditure was for police protection, and close to one-fourth, \$5 billion, was for corrections. The balance was distributed as follows: \$2.6 billion or 12 percent for judicial activities, \$1.2 billion or 6 percent for prosecution and civil legal services, \$0.4 or 2 percent for public defense, and \$0.5 billion or 2 percent for other criminal justice activities. All six criminal justice functions showed increases in 1977 over 1976: Public defense expenditure led with a 22 percent increase, followed by legal services/prosecution (up 17 percent), corrections (up 13 percent), other criminal justice (up 10 percent), judicial (up 9 percent), and police protection (up 8 percent).

In October 1977, there were 1,131,780 criminal justice employees on a full-time equivalent basis. This was 51,888 more than in October 1976, the highest rate of growth since October 1974, as seen in table B.

Figure 1 presents State-by-State per capita expenditure for criminal justice activities of State and of local governments in Fiscal Year 1977. The per capita data were computed on the basis of provisional population estimates as of July 1, 1977.

On a per capita basis, direct expenditure of all State and local governments for criminal justice activities was \$87 in 1977, an 8.8 percent increase over the \$80 recorded in 1976. Local governments spent \$60 per capita, or 69 percent of the total State and local government per capita expenditure. However, in 7 States (Alaska, Delaware, New Mexico, North Carolina, Rhode Island, Vermont, and West Virginia) per capita criminal justice expenditure of the State government exceeded that of its local governmental units. The District of Columbia per capita expenditure of \$268 was the highest amount recorded in 1977, although this was 7.3 percent lower than the \$289 per capita in 1976. Among the States, Alaska at \$217 led the Nation, followed by Nevada (\$162), New York (\$130), and California (\$125).

The total expenditure increase of State and local governments from FY 1976 to FY 1977 varied sharply by region, as shown in Figure 2 in the graphic summary. The South led all regions with an increase of \$495.2 million or 11.0 percent, followed closely by the West, up \$430.7 million or 10.9 percent, and the North Central region up \$373.0 million or 9.1 percent. The Northeast region had only about half of the increase of that of the South, with a total expenditure increase of \$266.1 million or 5.6 percent.

Year-to-year change in expenditure of State and local governments also varied dramatically from State to State (Figure 3). California led all State areas with the largest increase in absolute

pent—\$231.2 million or 9.2 percent. The three next dollar gains were made in Michigan (\$90.8 million or 12.2 percent), Texas (\$79.9 million or 11.2 percent), and Florida (\$74.0 million or 8.9 percent). In terms of percent increase, Wyoming led with an increase of 48.8 percent; however, represented a relatively small dollar increase of \$1.1 million. Oklahoma was next, with a 32.8 percent increase representing an additional outlay of \$44.2 million.

State governments continued to spend more than the Federal Government and State governments combined for all criminal justice activities.

Figure 6 in the graphic summary shows that local governments accounted for 60 percent of all direct criminal justice expenditure; State governments contributed 27 percent, the Federal Government 13 percent. However, when activity is examined separately, the proportion accounted for by the different levels of government varied throughout the criminal justice system.

As seen in table C, five of the activities—police protection, judicial, legal services and prosecution, public defense, and “other criminal justice” were supported mainly by local governments. State governments contributed the largest amount for corrections.

Figure 4 shows the change in direct expenditure by type of government and by function from FY 1976 to FY 1977. The two largest increases in direct expenditure occurred in police protection of municipalities (up \$444 million) and in corrections expenditure of State governments (up \$372 million). These two increases alone accounted for over 43 percent of the total increase in direct expenditure for all governments between FY 1976 and FY 1977. The “other criminal justice” sector of municipalities registered the largest year-to-year percent increase (37.0 percent or \$25.5 million), followed closely by the Federal public defense sector (up 35.4 percent or \$36.7 million) and the Federal judicial sector (up 32.0 percent or \$70.2 million).

Table B. Total Full-time Equivalent Criminal Justice Employees and Percent Change, by Level of Government, October 1971 to October 1977

Payroll period	Total	Federal	State	Local
Number of employees				
October 1971.....	861,776	77,523	205,859	578,394
October 1972.....	898,305	85,222	216,603	596,480
October 1973.....	945,309	87,139	232,299	625,871
October 1974.....	1,011,205	93,755	252,588	664,862
October 1975.....	1,050,503	96,136	263,208	691,159
October 1976.....	1,079,892	99,553	272,488	707,851
October 1977.....	1,131,780	100,088	298,571	733,121
Percent increase or decrease (-)				
October 1971 to October 1972.....	4.2	9.9	5.2	3.1
October 1972 to October 1973.....	5.2	2.2	7.2	4.9
October 1973 to October 1974.....	7.0	7.6	8.7	6.2
October 1974 to October 1975.....	3.9	2.5	4.2	4.0
October 1975 to October 1976.....	2.8	3.6	3.5	2.4
October 1976 to October 1977.....	4.8	0.5	9.6	3.6
October 1971 to October 1977.....	31.3	29.1	45.0	26.8

Table C. Percent Distribution of Total Direct Expenditure for the Criminal Justice System by Activity and Level of Government, Fiscal Year 1977

Level of government	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
Total.....	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Federal.....	12.9	14.9	11.0	15.2	34.8	6.1	19.5
State.....	26.9	15.2	24.6	24.2	19.4	57.7	27.6
Local.....	60.2	69.9	64.4	60.6	45.8	36.2	52.9

Relationships similar to those found for expenditure among the various levels of government also apply to employment. Figure 7 shows that almost two-thirds of the total full-time equivalent criminal justice employment of all governments was at the local level. As seen in table D, the proportion of people employed by the three levels of government in each sector generally approximated the proportion of expenditures made in the sector. Exceptions to this pattern are seen in the public defense and "other criminal justice" sectors. The Federal Government accounted for 35 percent of the total expenditure for public defense but only 3 percent of the employees. This is because the Federal Government makes more extensive use of court-appointed counsel systems, whereby fees are paid to private counsel to defend indigent clients accused of crimes, than do State and local governments, which more frequently hire employees directly to provide public defense services. It should also be noted that 85 percent of Federal public defense expenditure was accounted for by the Legal Services Corporation for counseling indigent persons in purely civil matters. Other Federal public defense programs service clients involved in criminal matters or mixed criminal and civil matters. Local governments accounted for 53 percent of "other criminal justice" expenditure but only 42 percent of the employees, while State governments contributed 28 percent of the expenditure and 41 percent of the employees. This is due in part to the effect of large capital expenditures in this category at the local government level for construction of multipurpose criminal justice buildings. Moreover, this residual category has smaller expenditure and employment totals and small changes have a greater proportionate impact.

Federal Government (tables 4 and 5)

The Federal Government expended a total of \$3.6 billion on criminal justice activities in fiscal year 1977. This represents slightly over 1 percent of the total 1977 Federal expenditure of \$314 billion. The \$3.6 billion amounts to a \$280 million, or 8 percent increase, over FY 1976. The increase in Federal criminal justice direct expenditure (which includes current operating expenses and capital outlay but excludes Federal grants to State and local governments) was even greater at 13 percent.

The police protection sector accounted for the largest portion of the total dollar increase: \$156 million or 10 percent.

However, the public defense sector accounted for the largest percentage increase, 35 percent or \$36.7 million, reflecting a 41 percent increase in the expenditures of the Legal Services Corporation referred to above.

Following closely in amount of increase were Federal judicial expenditures, rising 32 percent. This reflects increases of \$53.5 million by the U.S. District Courts, \$6 million by the U.S. Marshals Service, and \$5 million by the Federal Judicial Center.

Increases also occurred in legal services, up 24 percent, and in corrections, up 18 percent. For the first time in recent years "other criminal justice" expenditure experienced a decline, dropping \$72 million or 8 percent. This is primarily the result of a decrease in intergovernmental expenditure. Law Enforcement Assistance Administration grants (comprising nearly all of Federal intergovernmental outlays for criminal justice,) decreased from \$836 million in FY 1976 to \$774 million in FY 1977. Of the \$62 million drop, \$58 million occurred in Federal payments to State governments.

Figure 8 shows that, as in previous years, the largest share of Federal criminal justice money was expended for police protection activities, including those agencies that enforce Federal law and those that provide security and police services to Federal property and buildings. Of the \$3.6 billion in total Federal criminal justice expenditure, about one half (\$1.8 billion) was for activities in the police protection sector, including those of the Federal Bureau of Investigation (\$464 million), the Bureau of Customs (\$341 million), the Drug Enforcement Administration (\$158 million), and the Postal Inspection Service (\$114 million). About one-fourth of all Federal criminal justice expenditure was reported for activities classified in the "other criminal justice" sector. The other four sectors accounted for the remaining 26 percent of Federal criminal justice expenditure.

Full-time equivalent Federal employment in criminal justice activities increased slightly (0.5 percent) from October 1976 to October 1977. There were just over 100,000 full-time equivalent employees in October 1977, including 71,433 (71 percent) in the police protection sector; 11,760 (12 percent) in the corrections sector; 6,930 (7 percent) in the legal services and prosecution sector; and 8,165 (8 percent) in the judicial sector (see figure 9). Public defense and "other criminal justice" to-

Table D. Percent Distribution of Full-Time Equivalent Employment in the Criminal Justice System by Activity and Level of Government, October 1977.

Level of government	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
Total.....	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Federal.....	8.8	11.1	5.4	10.8	2.8	4.6	17.1
State.....	26.4	14.5	24.8	23.6	39.2	57.1	40.9
Local.....	64.8	74.4	69.8	65.6	58.0	38.3	42.0

gether accounted for only 1,800 full-time equivalent employees (2 percent) although these two sectors accounted for 28 percent of the total Federal criminal justice expenditure. As previously mentioned, the greatest portion of public defense expenditure was for court-appointed counsel, who are not considered regular public employees, and the greatest portion of the "other criminal justice" expenditure was in the form of intergovernmental grants.

Federal criminal justice employees drew an October 1977 payroll of \$170.0 million; each sector's percentage of the total payroll was generally proportionate to the percentage of full-time equivalent employment (see table E). There is a slight disparity in some sectors because of a concentration of higher paid employees. For example, the judicial sector had 8 percent of the employees but received 9 percent of the payroll. As shown in figure 5, the Federal Government has the highest average monthly salaries in every criminal justice sector. An average monthly salary of \$2,035 for public defense employees is followed by average salaries of \$1,882 and \$1,869 in the judicial and legal services/prosecution sectors respectively.

State governments (tables 6-11)

The total general expenditure of State governments in FY 1977 was \$166 billion, of which \$6.7 billion or 4 percent was expended on criminal justice activities, about the same proportion as in past years. This represents an increase of \$709 million or 12 percent in criminal justice expenditure from the previous fiscal year, slightly less than the 13 percent increase from 1975 to 1976.

The increase in expenditure by State governments was reflected in all criminal justice sectors except "other criminal justice." The legal services and prosecution sector at the State level showed the largest percentage increase, up 24 percent. Corrections expenditure, increasing by \$385 million or 15 percent, accounted for more than half of the overall dollar increase.

The slight overall decline of 0.4 percent in total State "other criminal justice" expenditure from \$612 million in FY 1976 to \$610 million in FY 1977 follows several years of decreased rates of growth. The decrease occurred in State intergovernmental payments to local governments, which dropped from \$482 million to \$471 million, reflecting the decline in the Law Enforcement Assistance Administration block grants, which States redistribute to local governments.

Police protection and judicial expenditure of State governments both showed decreased rates of growth from the previous year. Police protection expenditure increased 10 percent compared with 13 percent in FY 1976; and judicial expenditure rose 12 percent, down from the 18 percent increase in the prior year. Public defense expenditure rose 15 percent—nearly double the 8 percent rate of increase of a year ago.

As in past years, the corrections sector accounted for the largest portion of State criminal justice expenditure (\$3 billion or 44 percent). These expenditures included the operation of State prison systems and, in many States, the operation of the probation and parole systems as well. The balance of State criminal justice expenditure was distributed as follows: Police protection, \$2 billion, or 29 percent; judicial, \$736 million or 11 percent; legal services and prosecution, \$315 million, or 5 percent; public defense, \$90 million, or 1 percent; and "other criminal justice", \$610 million, or 9 percent (see figure 10).

Full time equivalent employment of State criminal justice agencies increased 10 percent to 298,571. Each criminal justice sector showed increases in employment, ranging from a 3 percent increase in the number of police protection employees to a 36 percent increase in judicial personnel (due largely to court system reorganizations involving a State takeover of some local courts). Payroll increased 19 percent between October 1976 and October 1977. The 298,571 full-time equivalent employees (10 percent of the total 2.9 million full-time equivalent employees on State payrolls) received \$370 million in salaries, wages, or other compensation in the month of

Table E. Percent Distribution of Federal Criminal Justice Full-Time Equivalent Employment and Payroll, by Activity, October 1977

(Dollar amounts in thousands)

Activity	Full-time equivalent employees	October 1977 payroll	Percent distribution	
			Full-time equivalent employment	October 1977 payroll

October 1977. The percentage of full-time equivalent employment in each sector was generally proportionate to the percentage of total expenditure in each sector with the exception of "other criminal justice" (see figures 10 and 11).

The October 1977 payroll of \$370 million was divided among the six criminal justice sectors roughly in proportion to the full-time equivalent employment in the sector (see table F). For those sectors characterized by higher-paid employees, namely judicial, legal services/prosecution, public defense, and "other criminal justice" (see figure 5), the sector's share of payroll of course exceeded the share of employment.

Local governments: Counties and municipalities (tables 6-10 and 14-24)

Total expenditure for criminal justice by local governments in fiscal year 1977 was \$13 billion, a \$959 million or 8 percent increase from FY 1976—about \$600 million or 7 percent less than the increase in the prior year. As in past years, close to two-thirds of this expenditure occurred in the police protection sector (\$8 billion or 64 percent). The judicial sector and the corrections sector accounted for 13 and 14 percent of expenditure respectively, while the other three sectors accounted for relatively smaller percents (see figure 12).

Local full-time equivalent employment was also distributed among the six sectors roughly in the same proportions as total expenditure (see figures 12 and 13). Two slight exceptions to this generalization are the public defense sector, where payments are frequently made to private court-appointed counsel who are not direct employees of the government, and the "other criminal justice" sector, where expenditures are frequently grant funds of private agencies associated with criminal justice activities or are used for construction of multi-purpose criminal justice facilities. In both instances, large expenditures may be made without the governments involved directly employing the workers.

Analyzing local criminal justice expenditure in total, however, tends to obscure important differences between the county level of government and the municipal level. Municipal governments (cities, towns, and townships) outspent county governments on criminal justice by almost \$3 billion overall, but the difference can be attributed almost exclusively to the police sector, where the municipal governments outspent the county governments by more than 4 to 1. Municipal governments spent \$6.7 billion (or 84 percent of all their criminal justice expenditure) on police protection, more than county governments spent on all six sectors altogether. However, county governments spent substantially more than municipal governments in the other five sectors. No one sector dominates county criminal justice expenditure as police protection does municipal expenditure (see figures 14 and 16).

County criminal justice expenditure for all activities increased by 10 percent over FY 1976, about half the increase from FY 1975 to FY 1976 and the lowest increase in recent years. The greatest individual sector increase occurred in public defense, \$26.3 million or 20 percent which, however, represents a decline from the prior year increase of 27 percent. All other sectors registered substantial declines in their rates of increase from the prior year: police protection, from 15 to 9 percent; judicial, from 19 to 8 percent; legal services and prosecution, from 24 to 16 percent; corrections, from 16 to 10 percent; and "other criminal justice," from 134 to 15 percent. The drop in "other criminal justice" expenditure at the county level partly reflects a reduction in capital outlay expenditure from \$436 million in FY 1976 to \$424 million in FY 1977. This contrast markedly with the 1975-76 increase of \$154 million in county capital outlay for the construction of multifunctional criminal justice buildings, such as police-jail or police-court facilities.

At the municipal level, the largest proportionate increase year-to-year was in the "other criminal justice" sector (3 percent)—the only sector in which the rate of increase did not

¹Because of rounding, detail does not add to total.

decline in relation to FY 1976. In the other sectors, changes ranged from a 4 percent decline in municipal judicial activities to a 12 percent increase in the legal services and prosecution sector.

At both the county and municipal levels, employment and payrolls were distributed throughout the various sectors in nearly the same percentages as expenditure (see tables G and H). There were 287,760 full-time equivalent county criminal justice employees in October 1977 drawing a monthly payroll of \$327 million. This was an increase of 15,219 or 6 percent over October 1976. The police protection sector showed the greatest increase in the number of full-time equivalent employees, 4,818 or 5 percent. As at the State level, in those sectors with a concentration of higher-paid employees such as legal services and public defense (see figure 5), the percentage of total payroll exceeded the percentage of total employees. County average

monthly pay for police protection, rising 17 percent, exceeded the municipal average for the first time, \$1,267 to \$1,266. There were 445,361 full-time equivalent municipal criminal justice employees in October 1977 with a monthly payroll of \$559 million. This was an increase of only 2 percent compared with October 1976 full-time equivalent employment. Nearly all of the 10,011 increase occurred in police protection, which rose by 9,048, in marked contrast to the increase of less than 100 from FY 1975 to FY 1976. In the remaining municipal sectors, small declines in judicial and "other criminal justice" were offset by small gains in legal services and prosecution, public defense and corrections. Among the sectors with a significant number of employees, the legal services and corrections sectors paid the highest average salaries. Except in the police protection and public defense sectors, municipal average monthly salaries exceeded those at the county level.

¹Because of rounding, detail does not add to total.

Separate data are presented in tables 15-19 for the 333 county governments with a population of 100,000 or more. Over one-half (58 percent) of the total 1975 United States population lives in the 333 largest counties, and these counties accounted for slightly more than three-fourths (\$4 billion) of the total expenditure for criminal justice activities at the county level. These same counties accounted for 72 percent of all county-level full-time equivalent criminal justice employment (206,269) and paid 79 percent of the total county criminal justice payroll for October 1977. These figures of course, reflect the greater need for criminal justice services and the higher salaries in densely populated areas.

Separate data are presented in tables 20-24 for the 395 city governments with a population of 50,000 or more. Total criminal justice expenditure by the 395 large city governments amounted to \$5 billion, and full-time equivalent criminal justice employment was 275,687. These 395 cities have slightly more than one-half (53 percent) of the municipal population and accounted for slightly more than two-thirds of the municipal criminal justice expenditure, 67 percent. These same 395 cities employed 62 percent of all municipal full-time equivalent employees working in the criminal justice system and paid them 67 percent of the total municipal criminal justice payroll. Again, as with the large counties, the proportion of payroll exceeded the proportion of employees, reflecting the generally higher salaries in the large metropolitan areas.

The distribution of expenditure and employment throughout the various criminal justice sectors in the 333 counties and the 395 cities reflects the distribution for counties and cities generally.

It should be noted that in the individual city tables, certain cities displayed are either independent, being wholly outside any county area, or operate wholly or in part as a consolidated city-county. In general, these cities are more similar to large counties than to other large cities in the scope of their criminal justice responsibilities; that is, in addition to police protection, which is the primary criminal justice function in most cities, these cities also operate extensive judicial and corrections systems and may have significant public defense expenditures. The independent cities are: Anchorage, Alaska; Washington, D.C.; Baltimore, Md.; St. Louis, Mo.; Columbus, Ga.; Carson City, Nev.; and the following cities in Virginia: Alexandria, Chesapeake, Hampton, Lynchburg, Newport News, Norfolk, Portsmouth, Richmond, Roanoke, Virginia Beach, and 31 others, 20 of which are included in the survey sample and are reflected in table I. Data are not available for eight cities not included in the survey sample and three cities which did not respond. The consolidated city-county governments are: San Francisco, Calif.; Denver, Colo.; Jacksonville, Fla.; Honolulu, Hawaii; Indianapolis, Ind.; Lexington, Ky.; Baton Rouge, La.; New Orleans, La.; Boston, Mass.; New York City, N.Y.; Philadelphia, Pa.; Nashville-Davidson, Tenn.; and three others that are not displayed in the individual city tables because they had populations of less than 50,000. They are Juneau, Alaska; Sitka, Alaska; and Nantucket, Mass. All 15 however, are displayed in table I to show their effect on total municipal direct expenditure and employment for all criminal justice functions.

Because New York City's criminal justice direct expenditure accounted for 48 percent of the combined total of independent cities and consolidated city-counties, these units' share of total municipal direct expenditure is less dramatic when New York City is removed, dropping from 29 percent to 15 percent. Similarly, New York City accounts for 42 percent of the total criminal justice employment for this group, and when it is removed, the share of total municipal employment is reduced from 24 percent to 14 percent.

Local governments in the 17 largest SMSA's (tables 12, 13, and 14)

Data are presented on criminal justice expenditure, employment, and payroll of all governments in the 17 largest standard metropolitan statistical areas (SMSA's) and within the individual SMSA for each of its component county areas. The county area data include aggregate figures for the county government and for all municipalities within that county. In a few instances, data for individual cities are listed separately in the SMSA tables because the city is either the only government within a county area, e.g., consolidated city-county governments such as Philadelphia or New York City, or the city is organizationally independent and within no recognized county boundary, e.g., St. Louis, Mo., or Baltimore, Md. The State Economic Area (SEA) rather than the SMSA is shown for Boston because the SMSA's in New England are defined in terms of cities and towns rather than counties, a deviation from the general SMSA concept. The SEA, on the other hand, is made up of counties.

As seen in table 12, the 17 largest SMSA's expended \$6.0 billion for criminal justice activities in FY 1977. Almost half (46 percent) of the Nation's total local criminal justice direct expenditure was made by governments in these areas, where 30 percent of the estimated 1975 United States population resides. On a sector-by-sector basis, governments in these SMSA's accounted for 46 percent of all local government direct expenditure for police protection; 43 percent of local expenditure for judicial activities; 45 percent of local expenditure for legal services and prosecution activities; 49 percent of local expenditure for public defense activities; 47 percent of all local expenditure for corrections activities; and 47 percent of local expenditure for "other criminal justice" activities (see table J).

The local governments in the 17 largest SMSA's employed 295,830 full-time equivalent personnel in criminal justice, or 40 percent of the total number of local government full-time equivalent employees working in criminal justice. The percentage of all local government employees working in each criminal justice sector in these SMSA's was police protection, 40 percent; judicial, 40 percent; legal services and prosecution, 40 percent; public defense, 43 percent; corrections, 42 percent and "other criminal justice," 40 percent.

On a per capita basis, the 17 largest SMSA's spent \$91 in 1977. Police protection accounted for \$58 or 64 percent of the 17 largest SMSA's total criminal justice expenditure. Total per capita criminal justice expenditure varied from \$42 for the Pittsburgh SMSA to \$139 for the New York, New York-New Jersey SMSA. Police protection expenditure as a percentage of total SMSA expenditure ranged from 50 percent for San Francisco-Oakland to 77 for Chicago (figure 18).

SURVEY METHODOLOGY-SOURCES AND LIMITATIONS OF THE DATA

General

Survey coverage and collection methods are described in detail below, and the definitions applied in the collection of data are presented in appendix 2.

As in the previous editions of this annual series, several tables show comparisons of criminal justice expenditure and full-time equivalent employment with the total general expenditure and full-time equivalent employment for all functions of the particular government or level of government. Prior to the FY 1971 report, local government total expenditure and full-time equivalent employment included data for independent school districts and special districts as well as for general local governments, i.e., counties, municipalities, and townships.

The "variable pass-through" provisions of the Omnibus Crime Control Act of 1970, however, required that the concept of "local" government be confined to units of general local government only in determining the ratio of State-to-local government criminal justice expenditure. Beginning with the FY 1971 report, therefore, the same concept was applied consistently throughout the publication to reflect the intent of the law, and the total general expenditure and total full-time equivalent employment figures shown for the "local" level of government in these comparisons include data for units of general local government only and do not include data for independent school districts or special districts. This change may result in significant differences from the percentages shown in years prior to FY 1971 in those States where education is largely the responsibility of independent school districts, or where there are large special districts. Criminal justice expenditure and employment data in this series, however, have always been for units of general local government only; i.e., no data on the criminal justice activities of independent school districts or special districts have ever been included. As in previous reports, however, appendix 1 presents separate data for those independent school districts and special districts having significant special police expenditure and employment. In addition, appendix 1 includes separate data for campus police of colleges and universities that are dependent agencies of State and local general governments—data that are also included in the summary figures for State and local governments.

Survey coverage

The survey through which basic figures for this report were collected covered the Federal Government, all State governments, and a representative sample of local governments within each State. Data were collected for all county governments (regardless of size), for all municipalities (and townships in the New England and Middle Atlantic States) having a 1970 population of 10,000 or more, and for a sample of the remaining municipalities and townships with less than 10,000 population, selected according to the relative size of their annual expenditures as reported in the 1972 Census of Governments. The

survey panel therefore included the Federal Government, the 50 State governments, and 9,044 local governments (the 3,042 county governments, 4,305 municipalities, and 1,697 townships).

The survey period

Federal Government data are shown for FY 1977, which began on October 1, 1976 and ended September 30, 1977. (Data for the transitional quarter from July 1, 1976 to September 30, 1976 were displayed separately in Table 4A of the 1976 publication of criminal justice expenditure and employment). The State expenditure data presented in this report cover the fiscal year ending June 30, 1977 for all States except four whose fiscal years ended as follows: New York, March 31, 1977; Texas, August 31, 1977; and Alabama, and Michigan, September 30, 1977. However, there are some State agencies that operate on a different fiscal year basis from the rest of the State government. In such instances, figures shown are for the agency's fiscal year that ended within the State's regular fiscal year.

For local governments, the 1977 fiscal years reported are those that closed between July 1, 1976 and June 30, 1977. Most municipalities and counties ended their fiscal years on December 31, 1976 or June 30, 1977. The fiscal year reported for Washington, D.C. ended on September 30, 1977.

Employment data shown for Federal, State, and local governments are for October 1977.

Data collection

The survey was accomplished using two methods of data collection: Field compilation and mail canvass. Trained field representatives compiled expenditure and employment data from the governments' own records for the 50 States, the 333 largest counties, the 395 largest cities, and selected smaller units. The compilation work was done between July 1977 and June 1978 in accordance with the definitions presented in appendix 2. All other units in the sample were canvassed by mail for expenditure and employment data, over a 5-month period beginning in January 1978 and ending in May 1978. Response for field-compiled units was 100 percent. The response from mail canvass units was 92 percent. The mail canvass questionnaires are exhibited in appendix 3.

The field survey efforts and mail canvass were supplemented by reference to a variety of published government documents such as budgets, financial statements, and audit reports. In some cases, such sources were the basis for breakdowns of totals into more detailed employment and expenditure figures.

The expenditure and employment data for the Federal Government were collected through a special mail survey, with telephone followup, of Federal criminal justice agencies, in accordance with definitions used for State and local governments (see appendix 2). For reports prior to 1971, expenditure data were derived from the Budget of the United States Government, and employment figures were obtained from the U.S. Civil Service Commission.

Data limitations

The sample selected to develop local government figures is one of all possible samples of the same size that could have been chosen using the same sampling design. Estimates derived from these different samples would differ from each other and also from a complete census using the same data collection procedures. This variation among all possible estimates is sampling error. Because all State and county governments were included in the survey, State and county figures are not subject to sampling error.

The local government sample was designed to produce an estimate for each State of the portion of total criminal justice expenditure made by local governments with a relative sampling error of less than one-half of 1 percent. For the fiscal year 1977 data, the errors were less than one-half of 1 percent in all but 13 States; however, in all States, the errors were less than three-quarters of 1 percent, at the 95 percent confidence level.

The relative sampling error of the State-by-State estimates of local government criminal justice expenditure has been calculated at the two-thirds confidence level and found to be within 3 percent of the estimated totals for all States and less than 2 percent for 28 States. The results of the computations of standard errors for local government totals on a relative standard error basis are summarized in table K.

Because State government figures are not subject to sampling variation, the State-local aggregates shown for individual States are relatively more reliable than the local government estimates they include.

The data are also subject to the inaccuracies in classification, response, and processing that would occur if a complete census had been conducted under the same conditions as the sample survey. Every effort was made to keep such errors to a minimum through care in examining, editing, and tabulating the data submitted by government officials. Followup procedures were used extensively to clarify inadequate and inconsistent survey returns.

Readers should be generally cautious in comparing governments, because other differences in functional responsibilities from State-to-State and government-to-government can also affect the comparability of expenditure and employment data. For example, some State governments directly administer certain activities that elsewhere are undertaken by local governments, with or without fiscal aid, and the same variation in the division of responsibilities exists for counties and cities.

The available source documents did not consistently provide full itemization of expenditure or employment for the sector subcategories presented in this report. As a result, sector breakdowns may be incomplete for particular governmental units.

Because of rounding, the detail data in some tables may not add precisely to the totals shown.

Changes in survey methodology

As discussed earlier, this series of annual reports dates back to FY 1967. The survey originated in the Bureau of the Census as a special in-house study in which police protection, judicial, and corrections data were extracted for selected large governments from data compiled in the Bureau's regular annual finance and employment sample surveys. In the FY 1969 survey, prosecution and public defense were added to the original three criminal justice categories, coverage was extended to the entire regular annual survey sample of counties and municipalities, and a mail canvass questionnaire designed specifically to elicit criminal justice data was used for all but the largest governments which were canvassed by field agents. These changes must be taken into account in making year-to-year comparisons from FY 1967 through FY 1970.

In the FY 1970 report, individual unit data were published for 128 large counties (as compared with 55 counties in earlier reports) and for 158 large cities (compared with 48 cities in earlier reports). The Federal expenditure data presented in all reports through FY 1970 were extracted from the Budget of the United States Government, and the employment data

Table K. Relative Standard Errors of Local Government Totals of Criminal Justice Expenditure

		Texas	Utah
		Virginia	Vermont
		Washington	West Virginia
			Wisconsin
			Wyoming

were provided by the U.S. Civil Service Commission. Since FY 1971 Federal data have been collected by a special mail canvass.

For the FY 1971 survey, a new and enlarged panel of local governments was drawn specifically for the criminal justice expenditure and employment survey, including all county governments and a larger sample of municipalities and townships, to produce more reliable estimates for use by LEAA in the allocation of block grant funds between State and local governments. The data presented in reports since FY 1971 are therefore essentially comparable, because they are derived from the same sample using the same methods of data collection and processing. The only significant variations occurred in classification of certain expenditure items discussed in detail in the following section.

Changes in classification

In the FY 1971 report, police protection expenditure included amounts expended for traffic safety and related traffic engineering. Beginning with the FY 1972 report, these expenditures were excluded from the police protection figures. Also, data for special police forces administered by general-purpose governments (such as airport police, park police, housing police, etc.) were included in the police protection figures if the force employed 10 or more full-time sworn officers with general arrest powers. Beginning with the FY 1972 report, data for these forces were included regardless of size.

In the FY 1971 report, corrections expenditure figures covered a number of drug and alcohol abuse facilities and programs administered by assorted agencies, departments, and private organizations receiving public funding. Beginning with the FY 1972 report, these institutions and programs were included only if administered by a corrections agency of the criminal justice system.

In many States, statutes either require or permit local governments to supplement the salary of State-paid judges of major trial courts. In the FY 1971 report, an attempt was made to count these judges and their total payroll only at the State level. However, this effort was not uniformly successful. Therefore, beginning with the FY 1972 report, judges actually receiving a check from both the State and local governments were counted as part-time employees at both levels.

AVAILABILITY OF DATA

Copies of the annual and trends reports are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; U.S. Department of Commerce District Offices; and the National Criminal Justice Reference Service, Law Enforcement Assistance Administration, Box 6000, Rockville, Md. 20850.

In addition to this publication, data are also available on magnetic tape and computer printout. For details, contact the Statistics Division, National Criminal Justice Information and Statistics Service, Law Enforcement Assistance Administration, Washington, D.C. 20531.

**Decrease of 2.6 percent

FIGURE 6.

**Percent Distribution of Criminal Justice System
Direct Expenditure by Level of Government,
Fiscal Year 1977**

* For each level of government, this graph depicts direct expenditure only and excludes intergovernmental expenditure to avoid duplication, since payments from one level of government to another are reflected in the direct expenditures of the recipient level of government. On the other hand, figures 8, 10, 12, 14 and 16 depict total expenditure, including both direct and intergovernmental expenditure, of individual levels and types of governments. See text and Appendix 2: Definitions of terms.

Section I. VARIABLE PASS-THROUGH DATA

The data in this table were developed to comply with the Omnibus Crime Control and Safe Streets Act of 1968 as amended, which requires that the block grants made by the Law Enforcement Assistance Administration to each State be allocated between the State and local governments according to the ratio of State-to-local law enforcement expenditure from their own revenue sources.

The concept of "expenditure from own sources" specified in the law and used in the data collection means that the expenditure figures from which the State-to-local ratio was developed do not include amounts expended from revenue received from other governments. For example, State or local government expenditure from sales or property tax revenue are included but not amounts expended from intergovernmental revenue, such as Federal grant monies. (It should be noted that this is the only table in this publication based on this concept. All other expenditure tables reflect expenditure from all sources.)

Specifically for local government, any expenditure from revenue received from another local government, or received directly from the Federal Government or from the State government must be excluded. Likewise for State governments, expenditure from revenue received from local governments or from the Federal Government must be excluded.

The following items were deducted from total criminal justice expenditure of local governments to arrive at local government expenditure from own revenue sources: Revenue received directly from the Federal Government for criminal justice purposes, State payments to local governments for criminal justice purposes, and payments from local government(s) to other local government(s) for criminal justice purposes. The same procedure was followed to arrive at State government expenditure from own revenue sources. Criminal justice revenue received directly from the Federal Government and local criminal justice payments to the State government were deducted from the total State expenditure for criminal justice. This procedure assumes that all intergovernmental payments received by a government will be expended during the same fiscal year they were received. While this may not be the case in a particular year, any discrepancy will cancel out over time.

Table 1. Percent distribution of total criminal justice expenditure from own sources of State and local governments, by State, fiscal year 1977

X Not applicable.

¹Local governments data are estimates subject to sampling variation, see text for data limitations.

²Federal Government data are for the fiscal period beginning October 1, 1976 and ending September 30, 1977.

³The total line for each sector, and for the total Criminal Justice system, excludes duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount. The intergovernmental expenditure lines are totaled for the same reason.

- Represents zero or rounds to zero.

¹Data are based on a canvass of all Federal criminal justice agencies; see text for data limitations.

²Estimated criminal justice activities only.

³Total expenditure allocated to police protection, judicial, corrections, and other criminal justice based on information supplied by the U.S. Marshals Service.

⁴Primarily focuses on matters of a civil nature in contrast to State and local programs which focus on criminal as well as civil matters.

⁵All criminal justice related research programs terminated in January 1976.

⁶No criminal justice expenditure in 1977.

¹Represents zero or rounds to zero.²Less than half the unit of measurement shown.³Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation, data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.⁴The relation of criminal justice total expenditure to total general expenditure is based on data for general purpose governments only and does not include data for State-operated liquor stores, independent school districts, or special districts.⁵For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Table 6. Percent distribution of criminal justice system total expenditure (direct and intergovernmental) by State and type of government, fiscal year 1977—Continued

(Dollar amounts in thousands)

- Represents zero or rounds to zero.

² Less than half the unit of measurement shown¹ Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation, see text for data limitations.² The relation of criminal justice direct expenditure to total direct expenditure is based on data for general purpose governments only and does not include data for independent school districts or special districts.

- Represents zero or rounds to zero.

X Not applicable.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Table 9. Criminal justice system employment and percent distribution of full-time

Line number	State and type of government ¹	Total full-time equivalent employees ²	Total criminal justice system				Police protection				Judicial			
			Number of employees			Percent of total full-time equivalent employees	Number of employees			Percent of total criminal justice system employees	Number of employees			Percent of total criminal justice system employees
			Total	Full-time only	Full-time equivalent		Total	Full-time only	Full-time equivalent		Total	Full-time only	Full-time equivalent

- Represents zero or rounds to zero.

² Less than half the unit of measurement shown.¹ Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.² The relation of criminal justice full-time equivalent employees to total full-time equivalent employees is based on data for general purpose governments only and does not include data for State-operated liquor stores, locally operated utility systems, or for independent school districts and special districts.

equivalent employees by State and type of government, October 1977—Continued

- Represents zero or rounds to zero.

² Less than half the unit of measurement shown.¹ Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.² The relation of criminal justice October payroll to total October payroll is based on data for general governments only and does not include data for state-operated liquor stores, locally operated utility systems, or for independent school districts and special districts.

- Represents zero or rounds to zero.

X Not applicable.

Z Less than half the unit of measurement shown.

¹Data for county areas include figures for the county government and an estimate for municipalities within that county and are subject to sampling variation; see text for data limitations.²Because of rounding, the detail may not add precisely to totals.

- Represents zero or rounds to zero.

(X) Not applicable.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²Because of rounding, the detail figures may not add precisely to totals.

¹ - Represents zero or rounds to zero.² Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation, data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation. See text for data limitations.³ Because of rounding, the detail figures may not add precisely to totals.

- Represents zero or rounds to zero.

X Not applicable.

¹Data for municipalities, and the local governments, totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

X Not applicable.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

X Not applicable.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

X Not applicable.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

³Because of rounding, the detail may not add precisely to totals.

- Represents zero or rounds to zero.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

³Because of rounding, the detail may not add precisely to totals.

- Represents zero or rounds to zero.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.²Because of rounding, detail may not add precisely to totals.

- Represents zero or rounds to zero.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.²Because of rounding, the detail may not add precisely to totals.

- Represents zero or rounds to zero.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.²Because of rounding, detail may not add precisely to totals.

- Represents zero or rounds to zero.

X Not applicable.

¹Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

²For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local total line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

¹Where the name of the unit of government does not reflect the city where the unit's administrative headquarters are located, this information appears after the unit name.²Unit of government does not directly employ police personnel. Police services are provided by contract with another government or with a private security firm.³No longer has power of arrest.⁴Formerly Madison College.

APPENDIX 2: DEFINITIONS OF TERMS

Following is a glossary of terms, concepts, and categories used in this report and comments concerning their limitations.

The definitions are those applied in the field compilation of data for the 50 States, 333 largest counties, and 395 largest cities. These definitions were necessarily summarized for inclusion in the survey questionnaires (see appendix 3) sent to governments in the mail portion of the survey.

Government expenditure

Expenditure is all amounts of money paid out (net of any correcting transactions) other than for retirement of debt (including interest), investment in securities, extensions of loans, or agency transactions. It includes only external cash payments and excludes any intragovernmental transfers and noncash transactions, such as the provision of meals or housing of employees. It also includes any payments financed from borrowing, fund balances, intergovernmental revenue, and other current revenue. In several instances, two or more governments share the expense of maintaining a court or other criminal justice agency. In these cases, the allocable direct expenditure amount is reported for each government in the appropriate category. When a government pays pensions directly to retired employees from appropriated funds, such payments are included as expenditure of the government concerned. However, State and local government contributions to retirement systems and various other employee benefits are not included in expenditure data, since the majority of governments make lump-sum contributions to plans covering all government employees and cannot report for criminal justice employees separately. Neither in government's basic accounting records (from which criminal justice expenditure figures are drawn) nor in the records of their general-coverage employee benefit systems is there usually any breakdown of amounts contributed in terms of the various agencies or functions involved. Nor has an adequate procedure for calculating the proportion of such contributions allocable to criminal justice employees been developed because of the wide variation in the coverage of various plans, employee status requirements, benefit rates, etc.

For those governments whose records reflect contributions of criminal justice employees separately, separate data were obtained. However, these data are subject to the same variation referred to above, and neither the amount nor the quality of the data reported would permit any attempt to estimate total contributions for all similar governments in a given State. Given the problems involved, no estimation procedure seems feasible. Such data as were reported separately were therefore excluded from total criminal justice expenditures to provide a consistent data base for administering the "variable pass-through" requirement.

Expenditure is divided into two major categories by character:

1. **Direct expenditure** is all expenditure except that classed as intergovernmental and is further divided into two principal object categories:

a. **Direct current**, which includes salaries, wages, fees, and commissions, purchase of supplies, materials, and contractual services.

b. **Capital outlay**, which includes expenditure for the three subcategories below:

Construction: Production of fixed works and structures, and additions, replacements and major alterations there-to undertaken either on a contract basis by private contractors or through force account construction by the employees of the government. Included are the planning and designing of specific projects, the grading, landscaping, and other site improvement, and the provision of equipment and facilities that are integral parts of the structure.

Equipment: Purchase and installation of apparatus, furnishings, office equipment, motor vehicles and the like having an expected life of more than 5 years. This includes both additional equipment and replacements. Rentals for equipment, including rental payments that may be credited on the purchase price if purchase options are exercised, are classified as direct current expenditure. Equipment and facilities that are integral parts of constructed or purchased structures are classified respectively under construction or purchase of land and existing structures.

Purchase of land and existing structures: Purchase of these assets as such, purchase of rights-of-way, and title search and similar activities associated with purchase transactions.

The other object categories—interest on general debt, assistance and subsidies, and insurance benefits—are not applied to specific functions because they are not ordinarily available on a functional basis from government financial reports. In the few instances where bonded or mortgaged general indebtedness is identified for specific purposes, the interest payments are aggregated with other interest expenditures which make it virtually impossible to arrive at reliable and consistent breakouts of such data over a long period of time.

2. **Intergovernmental expenditure** is payments from one general purpose government to another, including grants-in-aid, shared revenues, payments in lieu of taxes, and

amounts for services performed by one government for another on a reimbursable or cost-sharing basis (for example, payments by one government to another for boarding prisoners).

Total expenditure is direct and intergovernmental expenditure of a government or level of government for criminal justice activities.

Total general expenditure is all expenditure of a government or level of government for all government functions, including criminal justice activities, but excluding utility system expenditure, liquor store expenditure, and insurance trust expenditure. Total general expenditure shown for the local level of government includes expenditure only of general purpose governments, and excludes expenditure of special districts and school districts.

Government employment

Employees includes all persons paid for personal services performed, including all paid officials and persons in paid leave status, and excludes unpaid officials, persons on unpaid leave, pensioners and contractors. Under this definition are two classes:

1. Full-time employees, who are all persons employed during the pay period including October 15, 1977, on a full-time basis, including all full-time temporary or seasonal workers employed during this pay period, as well as persons having permanent status.

2. Part-time employees, who are persons employed during the pay period including October 15, 1977, on a basis other than full-time, and persons paid by more than one government.

Derived from these two classes is:

Full-time equivalent employees, which means the total number of employees, discounted by applying average full-time earning rates. This is calculated by dividing the total payroll (full-time plus part-time) by the full-time payroll and multiplying the results by the number of full-time employees, where both full-time and part-time employees and payroll are reported. Where only part-time employees and payroll are reported, full-time equivalent employees are calculated by dividing the total part-time payroll by the average full-time salary for the particular criminal justice sector and type of government. Average full-time salary is calculated by dividing the full-time payroll by the number of full-time employees for the particular criminal justice sector and type of government.

Payroll is the gross payroll before deductions and includes salaries, wages, fees and commissions paid to employees as defined above for the month of October 1977.

Governmental functions

Police protection is the function of enforcing the law, preserving order, and apprehending those who violate the law, whether these activities are performed by a police department, a

sheriff's department, or a special police force maintained by an agency whose prime responsibility is outside the criminal justice system, but which has a police force to perform these activities in its specialized area (geographic or functional).

Included in this activity are regular police services, the maintenance of buildings used for police purposes, and such specialized police forces (including public and private contract forces) as airport police, free and toll highway police, free and toll bridge and tunnel police, housing police, maritime police, park police, transit and other utility system police, college and university campus police, and alcoholic beverage control agents. Coroners and medical examiners are also included. Excluded are vehicular inspection and licensing, traffic safety and engineering, fish and game wardens, fire marshals, and the like.

The special police forces included in the data are only those which are part of general purpose governments. Security forces, building guards, school crossing guards, and meter maids without general arrest power were excluded. Those special police forces that are part of independent school districts or special districts are not included in the data, inasmuch as these districts are not general purpose governments. However, data for selected larger special police forces of these districts are displayed in appendix 1, tables A and B. In addition, data for State and local government dependent colleges and universities are displayed in tables C and D.

In most States, sheriffs' departments are multifunctional agencies providing police protection, judicial, and/or correctional services. In order to allocate expenditure and employment data to the proper activity, the data for sheriffs' departments are prorated using factors developed from a special survey of sheriffs' departments conducted in 1973, or more current estimates of manpower distribution if available.

Short-term custody and detention have traditionally been considered part of the police protection function; and in editions prior to the 1969-70 report, were treated as such. However, beginning with the 1969-70 report, the concept was modified on the basis of information obtained from the 1970 National Jail Census. Data for institutions with authority to hold prisoners 48 hours or more are included in the "corrections" sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in the "police protection" sector.

Judicial activities encompass all civil and criminal courts and activities associated with courts such as law libraries, grand juries, petit juries, and the like. Since the names of courts with similar functions and legal jurisdiction vary from State to State and even within States, data have been categorized by types of court rather than by court name.

1. Appellate courts include courts of last resort and intermediate appellate courts. These are courts having jurisdiction of appeal and review, with original jurisdiction conferred only in special cases.

- a. Court of last resort is the final appeal within the judicial structure of each State. It is called the "Court of Appeals" in the District of Columbia, Maryland, and

New York; the "Supreme Court of Appeals" in West Virginia; the "Supreme Judicial Court" in Maine and Massachusetts. In Texas and Oklahoma two courts of last resort are authorized—the "Court of Criminal Appeals" for criminal cases and a "Supreme Court" for civil cases. In every other State the court of last resort is titled the "Supreme Court."

b. **Intermediate appellate courts** are those that are limited in their appellate jurisdiction by State law or at the discretion of the court of last resort. In 18 of the 27 States with a court of this type operating in fiscal year 1977 the name "court of appeals" is used. These States are:

Arizona	Louisiana
California	Michigan
Colorado	Missouri
Florida	New Mexico
Georgia	North Carolina
Indiana	Ohio
Iowa	Oklahoma
Kansas	Oregon
Kentucky	Washington

In Illinois the title is "Appellate Court"; in Maryland, "Court of Special Appeals"; in Massachusetts, "Appeals Court"; in New Jersey, "Appellate Division of the Superior Court"; in New York¹, "Appellate Division of the Supreme Court"; and in Texas, "Court of Civil Appeals."

In Alabama the civil and criminal cases are heard on appeal by separate courts—a "Court of Civil Appeals" and a "Court of Criminal Appeals." In Tennessee the "Court of Appeals" hears only civil appeals; a separate "Court of Criminal Appeals" reviews criminal cases before review by the court of last resort. In Pennsylvania the "Commonwealth Court" reviews all cases brought by or against the State government or its agencies; the "Superior Court" reviews all other appeals except those within the exclusive jurisdiction of the court of last resort.

2. **Courts of general jurisdiction** are trial courts having unlimited original jurisdiction in civil and/or criminal cases, the names of which vary considerably. The list below shows the title of the courts of general jurisdiction in each State. Several States are listed more than once because local situations led to the development of separate courts, either to hear cases involving different types of pleadings or to hear cases in particular local jurisdictions.

Circuit courts

Alabama	Mississippi
Arkansas	Missouri
Florida	Oregon
Hawaii	South Carolina

Illinois	South Dakota
Indiana	Utah
Kentucky	Tennessee ²
Maryland	Virginia
Michigan ²	West Virginia
	Wisconsin

District courts

Colorado	Nevada
Idaho	New Mexico
Iowa	North Dakota
Kansas	Oklahoma
Louisiana	Texas
Minnesota	Utah
Montana	Wyoming
Nebraska	

Superior courts

Alaska	Indiana ²
Arizona	Maine
California	Massachusetts
Connecticut	New Hampshire
Delaware	New Jersey
District of Columbia	North Carolina
Georgia	Rhode Island
	Washington

Chancery courts

Arkansas	Mississippi
Delaware	Tennessee

County courts

New Jersey	Vermont
New York	Wisconsin

Common pleas courts

Missouri
Ohio
Pennsylvania

Supreme court

New York

In many States, statutes either require or permit local governments to supplement the salary of State-paid judges of general jurisdiction courts. These judges were counted as part-time employees at both the State and local levels when actually receiving a check from both governments.

3. **Courts of limited jurisdiction** are courts whose legal jurisdiction covers only a particular class of cases or cases where the amount in controversy is below a prescribed sum or is subject to specific exceptions. Included under this category are probate courts, juvenile courts and other courts of limited jurisdiction.

¹There are also appellate terms of the Supreme Court that have jurisdiction in specific cases that would otherwise be heard by the appellate division.

²In these States, the above-named courts are supplemented in some counties and cities by general jurisdiction courts with varying names.

Probate courts are also called orphans courts, surrogate's courts, or courts of ordinary. The subject jurisdiction varies from place to place, but generally includes estate settlement; probate and contest of wills, adoption; commitment of the insane; administration of the affairs of orphans, mental defectives and incompetents; guardianship of minors; apprenticeship; receivership; change of name proceedings; and the administration of trusts.

Juvenile courts are those that deal primarily with delinquent and neglected children regardless of the name of the court. In various places such courts are called juvenile courts, family courts, juvenile and domestic relations courts, domestic relations courts, or other similar names. The jurisdiction of these courts can include crimes committed by persons under legal age; juvenile status offenses; offenses against children; probation of minor delinquents; adoption, custody, or disposition of minor and mentally incompetent children; child neglect or abandonment; child and wife support; and paternity.

Other courts includes various other State and local courts with limited jurisdiction such as justices of the peace, district magistrates, justice courts, county courts of limited jurisdiction, municipal courts, city courts, etc. Also included are specialized courts such as tax courts, courts of claims, and courts having jurisdiction over more than one type of case (e.g., a court that handles both juvenile and probate cases).

4. **Miscellaneous judicial** includes data on judicial activities that could not be reported under any of the above court categories, such as judicial councils and conferences, court administration offices (where identifiable), law libraries, jury commissions, and grand juries.

Legal services and prosecution includes the civil and criminal justice activities of the attorneys general, district attorneys, State's attorneys, and their variously named equivalents; corporation counsels, solicitors, and legal departments with various names. It includes providing legal advice to the chief executives and subordinate departmental officers, representation of the government in lawsuits, and the prosecution of accused violators of criminal law. These activities are included whether performed by one office or several, because in some jurisdictions a single officer provides all legal services, whereas in others a prosecutor's office handles only criminal matters, and a separate attorney's office performs all civil legal services. The operations of various investigative agencies having full arrest powers and attached to offices of attorneys general, district attorneys, or their variously named equivalents are also included.

Public defense includes legal counsel and representation in either criminal or civil proceedings as provided by public defenders, and other government programs that pay the fees of court-appointed counsel. These include court-paid fees to individually retained counsel, fees paid by the court to court-appointed counsel, government contributions to private legal aid societies and bar association-sponsored programs, and the activities of an established public defender office or program. Employment data are included only for public defenders' offices, because fee-paid counselors are not con-

sidered government employees, nor are counselors working for bar associations or legal aid societies.

Corrections is that function of government involving the confinement and rehabilitation of adults and juveniles convicted of offenses against the law and the confinement of persons suspected of a crime and awaiting adjudication. Data for institutions with authority to hold prisoners 48 hours or more are included in this sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in "Police Protection." Correction includes the operation of prisons, reformatories, jails, houses of correction, and other institutions. It also includes institutions, facilities and programs exclusively for the confinement of the criminally insane or for the examination, evaluation, classification, and assignment of inmates and institutions and programs for the confinement, treatment, and rehabilitation of drug addicts and alcoholics if the institution or program is administered by a correction agency of the criminal justice system. Pardon boards and parole and probation agencies, including resettlement or halfway houses for those not in need of institutionalization, are included in the correction sector as a separate subcategory.

1. **Correctional institutions** are prisons, reformatories, jails, houses of correction, penitentiaries, correctional farms, workhouses, reception centers, diagnostic centers, industrial schools, training schools, detention centers, and a variety of other types of institutions for the confinement and correction of convicted adults or juveniles adjudicated delinquent or in need of supervision, and for the detention of those adults and juveniles accused of a crime and awaiting trial or hearing. When an institution maintains a prison industry or agricultural program, data on the cost of production or the value of prison labor used by agencies of the same government, if identifiable, are excluded (and classed as expenditure for the function using the products or services). Expenditure for the manufacture, production, sale, and distribution of goods produced for sale or use outside the government are included under this heading.

a. **Institutions for men** includes identifiable expenditure and employment data for institutions exclusively for adult male offenders.

b. **Institutions for women** includes identifiable expenditure and employment data for institutions exclusively for adult female offenders. Where there is no separate women's prison, women offenders are either maintained in a prison complex that also houses other offenders or are boarded in private facilities or institutions in another State. No attempt was made to prorate data on institutions housing more than one type of inmate, but where females are boarded in private institutions or in another State, available expenditure data was tabulated. Employment data were not tabulated because the personnel were employees of another government.

c. **Institutions for juveniles** are those institutions identified by the 1975 Juvenile Detention and Correction Facility Census as housing primarily juvenile:

and in some States, "youthful offenders." These institutions include those under the control of a juvenile court, a probation department, or a youth authority or other similarly designated administrative body, as well as independently administered institutions. Also included are government payments to private agencies for the detention or treatment of delinquent juveniles.

There is considerable variation from State to State in the legal definition of a juvenile, particularly in regard to the age at which a person is no longer considered a juvenile. Institutions for juveniles have been classified individually in accordance with the laws and age designations of their respective States.

d. **Other and combined institutions** are those institutions holding a combination of inmates. Where expenditure or employment data for physically separate institutions for juveniles, adult females, and adult males were not separable by institution or type of institution, the entire amounts were included under this category.

2. **Correctional administration** consists of data for the overall administration of the correctional system, including data on the central administrative office (for example, the department of corrections or a youth authority). Data on the administration of individual correctional institutions or

probation/parole/pardon agencies are included in the appropriate subcategory if it was possible to deduct them.

3. **Probation, parole, and pardon** includes data on probation agencies, boards of parole, boards of pardon, and their variously named equivalents. Although probation agencies frequently function under the administration of the general jurisdiction court, the data are presented here after having been deducted from the judicial data, because of the correctional nature of the probation function. If the probation, parole, and pardon activities, or any or them individually, were part of the correctional administrative office, data were deducted where possible and shown separately here, and the balance was shown under the correctional administration category. The overlapping character of the probation, parole, and pardon activities prevented the separate presentation of these data.

4. **Miscellaneous correction** includes expenditure and employment data that could not be classified under one of the other subcategories.

Other criminal justice activities, shown in some tables, includes expenditure or employment data that are not elsewhere classified, that cut across more than one category, or that are not allocable to separate categories; e.g., expenditure on a general curriculum in educational institutions, the operation of State criminal justice agencies, crime commissions, etc. Such data are included in the totals, where they are not shown separately.

APPENDIX 3: SURVEY FORMS

Form CJ-6 Survey of Expenditure and Employment for Civil and Criminal Justice Activities of Local Governments

This form was mailed to the chief financial officer of the counties and municipalities surveyed.

Form CJ-6D Survey of Expenditure and Employment for Civil and Criminal Justice Activities of Local Governments (Fee-Supported Offices)

This form was mailed to the fee-supported offices of Sheriff and/or Clerk of Court in the States of Kentucky and Louisiana. Data for these fee-supported offices were incorporated in the appropriate criminal justice function data for the county where located.

Form CJ-23 Survey of Expenditure and Employment for Selected Special Police Forces

This form was mailed to special police forces serving colleges and universities, special districts, and independent school districts. Data for college and university forces were incorporated in the police protection data for the parent government and are displayed separately in appendix 1, tables C and D. Data for special police forces serving independent school districts or special districts were not included in the regular police protection data, inasmuch as these districts are not general purpose governments. However, data for selected large police forces serving such districts are displayed in appendix 1, tables A and B.

Form CJ-25 Survey of Expenditure and Employment for Civil and Criminal Justice Activities of the Federal Government

This form was mailed to the chief financial or administrative officer of individual Federal agencies, bureaus, and offices identified as part of the criminal justice system. A list of the units canvassed in the survey for this year is presented in tables 4 and 5

Form Approved: O.M.B. No. 41-R2630

**FROM THE DIRECTOR
BUREAU OF THE CENSUS**

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for six criminal justice functions: police protection, judicial, legal services and prosecution, public defense, corrections, and other criminal justice. Your cooperation in completing this year's questionnaire will be appreciated.

The data collected in this survey are used by the Law Enforcement Assistance Administration in implementing and administering the planning and action grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System**.

If there any items on this questionnaire for which the answer cannot be obtained from available records, reasonable estimates are requested. Please indicate such estimates with an asterisk (*). The duplicate copy of this questionnaire is for your files. The addressed copy should be returned, preferably within 3 weeks, in the enclosed preaddressed envelope. If you have any problems in completing this questionnaire, please call collect for assistance on (301) 763-7825 or (301) 763-2843.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 USC 3701). While you are not legally required to respond, your participation is needed to make the results of this survey comprehensive, accurate, and timely.

Sincerely,

MANUEL D. PLOTKIN

Criminal Justice System

Part IV - INTERGOVERNMENTAL REVENUE

Item A - Revenue direct from the Federal Government expended for the above activities

Enter only revenue received directly from the Federal Government. For example: that portion of General Revenue sharing used for criminal justice purposes, not the entire entitlement(s). Also include payments for CETA, boarding and feeding of Federal prisoners, Alcohol Safety Action Programs, etc. Do not enter amounts from the Federal Government received through the State or any of its departments or agencies.

Total

1. General revenue sharing

2. LEAA discretionary grants (not passed through a State agency)

3. Comprehensive Employment and Training Act (CETA)

4. Public Works Employment Act of 1976 (Title II)

5. Other - Specify: e.g., Alcohol Safety Act Program (ASAP) ↓

Item B - Revenue from the State Government expended for the above activities

Enter amounts from the Federal Government received through the State or any of its departments or agencies and amounts received from State-funded programs; also include amounts received from the State as shared fines, fees, and taxes; and reimbursement by the State for criminal justice services or activities provided to the State or to other local governments by law or under contract.

Total

1. LEAA block action and planning grants passed through the State Government

2. Other Federal criminal justice revenue passed through the State Government

3. State-funded criminal justice program grants

4. Reimbursements received from the State government for criminal justice services rendered by your government

5. Other - Specify ↓

Item C - Revenue from other local governments expended for the above activities

Enter amounts from the Federal or State Governments received through other local governments; and amounts or taxes, or as reimbursement for criminal justice services or activities provided to other local governments by law or under contract.

EXAMPLE: Payments received from another county, city, or town for police services rendered (such as patrol).

Total

1. Reimbursements received from other local governments for criminal justice services rendered by your government

2. Other - Specify ↓

**FROM THE DIRECTOR
BUREAU OF THE CENSUS**

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for various criminal justice activities. Since the fee-supported offices of Sheriff and Clerk of Court are included as part of the civil and criminal justice system, we will appreciate your cooperation in again providing information for three of these activities as they apply to your office: police protection, judicial, and corrections.

The data collected in this survey are used by the Law Enforcement Assistance Administration in implementing and administering the planning and action grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System**.

If your office has converted from a fee-supported to a county or State-supported office, please follow the instructions at the top of page 2 of this questionnaire.

If there are any items on this questionnaire for which the answer cannot be obtained from available records, reasonable estimates are requested. Please indicate such estimates with an asterisk (*). The duplicate copy of this questionnaire is for your files. The addressed copy should be returned preferably within 3 weeks, in the enclosed preaddressed envelope. If you have any problems in completing this questionnaire, please call collect for assistance on (301) 763-7825 or (301) 763-2843.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 USC 3701). While you are not legally required to respond, your participation is needed to make the results of this survey comprehensive, accurate, and timely.

Sincerely,

MANUEL D. PLOTKIN

Expenditure and Employment Data for the Criminal Justice System ☐

DEFINITIONS FOR COMPLETING PARTS I and II, COLUMNS (1) THROUGH (9)

► Part I — EMPLOYMENT AND PAYROLL

• **EMPLOYEES**—All persons paid by your government for personal services performed including all paid officials, salaried workers, and other persons in paid leave status. **Exclude** unpaid officials, persons on unpaid leave, pensioners, contractors and their employees, and persons paid entirely by another government for services performed for your government.

Full-time employees, Column (1) — Persons employed on a full-time basis during the one pay period which included October 15, 1977. **Include** all full-time temporary or seasonal workers employed during this pay period.

Part-time employees, Column (3) — Persons employed on a part-time basis during the one pay period which included October 15, 1977. **Include** here all persons working for your government who are paid by more than one government (e.g., with supplemental check).

• **PAYROLL, columns (2) and (4)** — Gross payroll before deductions including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1977, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

► Part II — EXPENDITURE

• **CURRENT OPERATIONS** — column (5) — Annual expenditure for salaries and wages of your government's officers and employees, including overtime, termination, and retroactive pay; and for the purchase of supplies, materials, and contractual services from individuals and firms in the private sector, e.g., attorney retainers

or fees to court-appointed counsel. **Exclude** capital outlay and report in column (6). Also **exclude** expenditures for debt retirement, securities investment, loan extensions, and within-government transactions. **Exclude** employer contributions for employee benefits and report in column (4).

• **CAPITAL OUTLAY, Column (6)** — Direct expenditure for contract or force account construction of buildings and other fixed improvements, and for the purchase of equipment, land, and existing structures.

• **INTERGOVERNMENTAL EXPENDITURE** — All money paid to other governments as fiscal aid or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services or care and boarding of prisoners in another government's jail). **Exclude** money paid to another government for the purchase of commodities, property or utility services, any taxes imposed and paid as such, and contributions for social insurance.

Payments to other general purpose local governments, Column (7) — Payments of your government to other counties, cities, or towns. **Exclude** payments to special purpose governments such as special districts or independent school districts.

Payments to the State government, Column (8) — Payments of your government to the State government or any of its departments or agencies.

• **GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS, column (9)** — Any employer contributions, separable by activity, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workers' compensation funds; and premiums paid by your government for health, hospital, disability, and other insurance programs. **Exclude** payments made directly to individuals and contributions made by employees to any of the above programs.

Important

Is your office a fee-supported office now? That is, is it financed and staffed in whole or in part by fees collected and retained?

☐ Yes — Answer a
☐ No — Answer b
☐ Never was a fee office

Before completing parts I through IV below, please complete the following question.
 Regardless of your answer to this question please complete the rest of the questionnaire.

a. Will your office convert from a fee-supported to a county or State-supported office on or before June 30, 1978?

☐ Yes
☐ No

Enter date

b. When did your office convert from a fee-supported to a county or State-supported office?

Enter date

Part I — EMPLOYMENT AND PAYROLL				Part II — EXPENDITURE				Your fiscal year was —	
Enter employment and payroll data for your government's one pay period which included October 15, 1977. Do NOT report ANNUAL payroll data. Omit cents from payroll figures. Count each employee only once — in the activity where that person works the largest part of the time.				Enter annual expenditure for the activities listed below for your government's fiscal year which ended between July 1, 1976 and June 30, 1977. Omit cents.				<input type="checkbox"/> July 1, 1976–June 30, 1977 <input type="checkbox"/> Jan. 1–Dec. 31, 1976 <input type="checkbox"/> Other — Specify: _____

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects expenditure and employment data for selected special police forces serving colleges, universities, independent school districts, and special districts. Your cooperation in completing this year's questionnaire will be appreciated.

The data collected in this survey are used by the Law Enforcement Assistance Administration in implementing and administering the planning and action grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System**.

If there are any items on this questionnaire for which the answer cannot be obtained from available records, reasonable estimates are requested. Please indicate such estimates with an asterisk (*). The duplicate copy of this questionnaire is for your files. The addressed copy should be returned preferably within 3 weeks, in the enclosed preaddressed envelope. If you have any problems in completing this questionnaire, please call collect for assistance on Area Code (301) 763-7825 or (301) 763-2843.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968 as amended (42USC3701). While you are not required to respond, your participation is needed to make the results of this survey comprehensive, accurate, and timely.

Sincerely,

MANUEL D. PLOTKIN

POLICE FORCE

scribed in the address box on the front of the questionnaire) employ either directly or by police force? A special police force is defined as a group of law enforcement officers with st, regardless of geographical jurisdiction, other than regular police agencies. Such forces cial area or jurisdiction; e.g., campus police, park police, transit police, harbor police, igh a special police force may cooperate with the regular local police force, it is admin- it.

lease complete the questions below

ible, enter here the name of the firm or police
ith whom you contract for police services

ase disregard the remainder of this questionnaire and return in preaddressed envelope

If you contract exclusively for police services and have no officers employed directly by your unit, fill out only parts III and V below. If you employ sworn police officers directly, fill out parts II, III, IV, and V below.

DEFINITIONS FOR COMPLETING PARTS II AND III, COLUMNS (1) THROUGH (9)

► Part II — EMPLOYMENT AND PAYROLL

- **EMPLOYEES** — All persons in your special police force unit (officers and other employees) paid for personal services performed, including all paid officials, salaried workers, and other persons in paid leave status. Exclude unpaid officials, persons on unpaid leave, pensioners, contractors and their employees, and persons paid entirely by another government for services performed for your unit.

Full-time employees, column (1) — Persons employed on a full-time basis during the one pay period which included October 15, 1977. Include all full-time temporary or seasonal workers employed during this pay period.

Part-time employees, column (3) — Persons employed on a part-time basis during the one pay period which included October 15, 1977.

- **PAYROLL, columns (2) and (4)** — Gross payroll before deductions including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1977, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

► Part III — EXPENDITURE

- **CURRENT OPERATIONS, column (5)** — Annual expenditures for salaries and wages of your unit's officers and employees including overtime, termination, and retroactive pay, and for the purchase of supplies, materials, and contractual services from individuals and firms in the private sector. Exclude all capital

► Part III — EXPENDITURE — Continued

outlay and report in column (6). Also exclude expenditures for debt retirement, securities investment, loan extensions and within-government transactions. Exclude employer contributions for employee benefits and report in column (9).

- **CAPITAL OUTLAY, column (6)** — Direct expenditure for contract or force account construction of buildings and other fixed improvements, and for the purchase of equipment, land, and existing structures.

- **INTERGOVERNMENTAL EXPENDITURE** — All money paid to other governments as fiscal aid, or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services). Exclude money paid to another government for the purchase of commodities, property or utility services, any taxes imposed and paid as such, and contributions for social insurance.

Payments to local governments, column (7) — Payments to a county, city, town, or any of their departments or agencies.

Payments to State government, column (8) — Payments to the State government or any of its departments or agencies.

- **CONTRIBUTIONS FOR EMPLOYEE BENEFITS, column (9)** — Any employer contributions, separable for your unit, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workmen's compensation funds; and premiums paid for health, hospital, disability, and other insurance programs. Exclude payments made directly to individuals and contributions made by employees to any of the above programs.

Part II - EMPLOYMENT AND PAYROLL		Part III - EXPENDITURE		Your fiscal year was -			
For special police force unit, enter employment and payroll for the one pay period which included October 15, 1977. Include sworn police officers, security patrols, guards, clerical, communications, and other support personnel who are employees of the special police force. Do NOT report ANNUAL payroll data. Omit cents from payroll figures.		Enter the annual expenditure for your special police force unit for your fiscal year ending between July 1, 1976 and June 30, 1977.		<input type="checkbox"/> July 1, 1976 - June 30, 1977 <input type="checkbox"/> Jan. 1 - Dec. 31, 1976 <input type="checkbox"/> Other - Specify <u>✓</u>

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for civil and criminal justice activities from agencies of the Federal Government and from State and local governments. Your cooperation in completing this year's questionnaire on the reverse side of this form will be appreciated. The information you enter should be only for the bureau, agency, or office in the address block above.

The data collected in this voluntary survey are used by the Law Enforcement Assistance Administration in implementing and administering the provisions of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. Federal data are used particularly for intergovernmental comparisons and to meet the needs of criminal justice planners at all levels of government. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System**.

It would be most helpful if we could receive your reply within 3 weeks. A preaddressed envelope is enclosed for your convenience. If you have any problems in filling out the questionnaire on the reverse side of this form please call for assistance on 763-7825 or 763-2843.

Sincerely,

MANUEL D. PLOTKIN

Enclosure

PLEASE COMPLETE QUESTIONNAIRE ON REVERSE SIDE

►Part I — EXPENDITURES◄

(FOR FISCAL YEAR 1977: OCTOBER 1, 1976 THROUGH SEPTEMBER 30, 1977)

NOTE — Please enter information only for the bureau, agency, or office shown in the address box on the front of this form. If unable to show actual cash disbursement, please show total obligations incurred minus the sum of unpaid accounts payable and undelivered orders.

1. What was your total CASH disbursement for CURRENT OPERATIONS; i.e., direct expenditure for annual salaries, wages, and expenses of officers and employees; purchase of supplies and materials; and for contractual services from other Federal agencies or private organizations? (Do not include government contributions for employees benefits — Report these amounts in Item 5 below.)	\$
2. What was your total CASH disbursement for CAPITAL OUTLAY; i.e., direct expenditure FROM YOUR OWN BUDGET for acquisition of land, construction, renovation and repairs of buildings and facilities, and purchase equipment?	\$
3. What was your total INTERGOVERNMENTAL CASH disbursement to all STATE GOVERNMENTS for fiscal aid (e.g., grants, including amounts which were "passed through" State governments to local governments) or for services rendered?	\$
4. What was your total INTERGOVERNMENTAL CASH disbursement to all LOCAL GOVERNMENTS for fiscal aid (e.g., grants) or for services rendered, made DIRECTLY to local governments and NOT "passed through" State governments or their departments or agencies?	\$
5. What was your total CONTRIBUTION FOR EMPLOYEE BENEFITS; i.e., payments made to the Federal Social Security program, Federal retirement systems, commercial or mutual life insurance plans, or premiums paid for accident and health, hospital, and other insurance programs? (Do not include payments made directly to individuals or contributions made by employees for any of the above programs.)	\$

► Part II – EMPLOYMENT AND PAYROLL ◄

(FOR THE ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977 – NOT ANNUAL DATA)

NOTE – Please report all employees; executives, managers, operatives, and support personnel. Also include temporary employees.

1. How many FULL-TIME employees, including sworn personnel, did you have on your payroll during the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977?	Full-time employees
2. What was the total gross payroll amount for all FULL-TIME employees reported in item 1 for the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977?	\$
3. What is the pay period interval which applies to the payroll reported in item 2? 1 <input type="checkbox"/> Monthly 3 <input type="checkbox"/> Every 2 weeks 5 <input type="checkbox"/> Other – <i>Specify</i> <u> </u> 2 <input type="checkbox"/> Twice a month 4 <input type="checkbox"/> Weekly	CENSUS USE ONLY
4. How many FULL-TIME SWORN * employees did you have on your payroll during the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977? (Should be equal to or less than the number reported in item 1.)	Full-time sworn employees
5. What was the total gross payroll amount for all FULL-TIME SWORN* employees reported in item 4 for the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977?	\$
6. What is the pay period interval which applies to the payroll reported in item 5? 1 <input type="checkbox"/> Monthly 3 <input type="checkbox"/> Every 2 weeks 5 <input type="checkbox"/> Other – <i>Specify</i> <u> </u> 2 <input type="checkbox"/> Twice a month 4 <input type="checkbox"/> Weekly	CENSUS USE ONLY
7. How many PART-TIME employees, including sworn personnel, did you have on your payroll during the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977?	Part-time employees
8. What was the total gross payroll amount for all PART-TIME EMPLOYEES reported in item 7 for the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977?	\$
9. What is the pay period interval which applies to the payroll reported in item 8? 1 <input type="checkbox"/> Monthly 3 <input type="checkbox"/> Every 2 weeks 5 <input type="checkbox"/> Other – <i>Specify</i> <u> </u> 2 <input type="checkbox"/> Twice a month 4 <input type="checkbox"/> Weekly	CENSUS USE ONLY
10. How many PART-TIME SWORN* employees did you have on your payroll during the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977? (Should be equal to or less than the number reported in item 7.)	Part-time sworn employees
11. What was the total gross payroll amount for all PART-TIME SWORN* employees reported in item 10 for the ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1977?	\$
12. What is the pay period interval which applies to the payroll reported in item 11? 1 <input type="checkbox"/> Monthly 3 <input type="checkbox"/> Every 2 weeks 5 <input type="checkbox"/> Other – <i>Specify</i> <u> </u> 2 <input type="checkbox"/> Twice a month 4 <input type="checkbox"/> Weekly	CENSUS USE ONLY

* Sworn employees defined: Those persons having statutory authority to arrest suspected violators of the law. Examples: Criminal Investigators positions series GS-1811, police position series GS-083, customs enforcement officer position series GS-1891, and other positions having equivalent arrest authority whether inside or outside the competitive civil service.

USER EVALUATION QUESTIONNAIRE

Expenditure and Employment Data for the Criminal Justice System, 1977

Dear Reader:

We have provided an evaluation form below for whatever opinions you wish to express about this report. Please cut out both pages, staple them together on one corner, and fold so that the Law Enforcement Assistance Administration address appears on the outside. After folding, use tape to seal closed. No postage stamp is necessary.

Thank you for your help.

1. For what purpose did you use this report on Expenditure and Employment Data for the Criminal Justice System, 1977?

2. For that purpose, the report --

☐ Met most of my needs

☐ Met some of my needs

☐ Met none of my needs

3. What particular types of data in the report did you use?

4. If the report did not meet your needs, what changes would increase its usefulness to you?

CUT ALONG THIS LINE

5. What additional types of data, if any, would you like to see collected regarding public employment and expenditure for criminal justice purposes?

6. Which parts of the report, if any, were difficult to understand or use?
How could they be improved?

7. Would a different format have been more useful to you?
If yes, please suggest a more useful organization of the material.

8. Can you point out specific parts of the text or table notes that are not clear or additional terms that need to be defined?

9. In what capacity did you use this report?

☐ Researcher

☐ Educator

☐ Student

☐ Criminal justice agency employee

☐ Government employee other than criminal justice - *Specify* _____

☐ Other - *Specify* _____

CUT ALONG THIS LINE

11. If you used this report as a criminal justice agency employee, please indicate the sector in which you work.

12. If you used this report as a criminal justice employee, please indicate the type of position you hold.

☐ Agency or institution administrator
☐ General program planner/evaluator/analyst
☐ Operations or management planner/evaluator/analyst
☐ Budget planner/evaluator/analyst
☐ Program or project manager
☐ Statistician
☐ Other ~ Specify
